## SUMMARY

I am a seasoned Data Solutions Engineer and Business Analyst with a proven track record of delivering efficient, data-driven solutions to drive organizational success. My passion for data interchange and integrity has provided me with many instances where I have exceeded expectations and achieved remarkable results.

## EXPERIENCE

### **Panasonic Avionics, Bothell, WA** *Data & Project Analyst, Sr.*

MAY 2014 - JUL 2016

- Implemented monitoring for strategic execution, data integrity, and process efficiency.
- Developed contract review system automating red flag reporting, reducing costs.

### **Panasonic Avionics, Bothell, WA** *Business Analyst III*

SEP 2011 - MAY 2014

- Enhanced data availability through API integration of disparate systems.
- Provided full-cycle support for Oracle 11i's CS and QA modules.
- Devised tailored solutions for cost reduction and business intelligence based on business needs.

### **Panasonic Avionics, Bothell, WA** *Business Systems Analyst*

NOV 2008 - SEP 2011

- Provided solutions support to Quality Assurance and Service global organizations.
- Developed Oracle PL/SQL solutions to support business needs.
- Implemented BI reporting through Oracle Discoverer and Microsoft SSRS.
